

Egewise Leadership Conversation

**A practical look at performance improvement and innovation
in teams and organisations**

Gordon Institute of Business Science (GIBS)
3 April 2012
18h00-21h00

Facilitated by international thought leader, author and facilitator,
Albert Kamphuis

ALBERT KAMPHUIS MSC graduated in 1984 as a cultural anthropologist at the University of Leiden. He was International Management Consultant with the Dutch Multinational Philips for 5 years and established as an independent Management Consultant since 1989, his focus is on the influence of personality structures on leadership, strategy definition, innovation effectiveness, project management and team development.

Albert's wealth of experience has been captured in his book – Egewise Leadership and the Nine Creating Forces of the InnovationCircle.

The objective of the Egewise Leadership Conversation is to provide a practical sense of how Egewise Leadership is applied in teams for change, innovation, and high performance.

Egewise Leadership Conversation

A practical look at performance improvement
and innovation in teams and organisations

3 April 2012

*Gordon Institute of Business Science
(GIBS)*

18h00-21h00

Albert Kamphuis is trained in many personality approaches, like MBTI, he started with the Enneagram in 1994. As a facilitator and coach, he guided hundreds of teams and managers through breakthrough innovation workshops, team meetings, interactive policy formulation and leadership development. His (team) coaching and trainings focus on personal mastery in business.

Egewise Leadership is an applied methodology which integrates Albert's experience "in the field" with the latest research and findings supporting transformation, innovation and growth. This includes the work of:

- The Gallup Organisation
- Jim Collins
- Peter Senge
- Otto Scharmer
- Don Riso and Russ Hudson

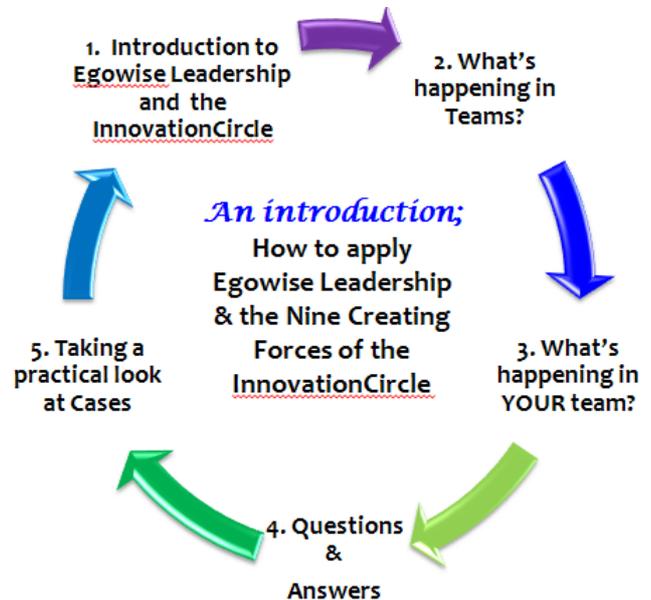

Egewise Leadership focuses on the process and management of dynamics which support high performance in a sustainable way.

The Nine Domains Group is sponsoring the visit of Albert Kamphuis to South Africa. We would like to make this approach widely understood as an in-depth and complete process for managing complex change in individuals, teams, groups and organizations. The Nine Domains' orientation is to bring precision, insight and pragmatism to demystifying change and performance improvement in teams, organizations and communities.

Process for the session:

The Egewise leadership conversation will take on an interactive format. The process is depicted below:

Reservations and Bookings:

Cost: **R 1100** per person

The price includes

- **Cocktail style dinner**
- **Albert's facilitation**
- **A soft copy or Kindle version of the book:** Egewise Leadership and the Nine Creating Forces of the InnovationCircle, by Albert Kamphuis
- **Hand-out which references research and empirical findings to support the application of the Egewise Leadership approach.** It will show how this method supports fundamental change, performance improvement and innovation in teams and organisations.

For reservations, please write to reservations@ninedomains.com

To manage the process for the session effectively, there are 35 seats available. Bookings for this event will close on 27 March 2012.
